

5 Time Return Customers in West Yarmouth:

Members of my family and I have chosen McPhee Associates to design and build for us for five new homes or major reconstructions, and we couldn't be more pleased with the results.

McPhee Associates built a lovely new summer home for us almost twenty years ago and it remains as solid and beautifully constructed now as it was then. They have since built another home for my family, and one for my sister, as well as completing a highly skilled and tasteful major renovation of my grandmother's 100-year old cottage. All the workmanship has been terrific, and every project has been well-organized, on-time and completed without any worry for us, even though my family and I live between 100 and 250 miles away much of the year.

This year we are delighted with the new guest house McPhee Associates just completed for us. The house and workmanship are terrific. The whole project was well-organized and conducted in a consultative and transparent way. Whether we were trying to choose among materials, confirm something about the design, or asking about best ways to reduce the cost of a project, Rob McPhee and his team were available with helpful and expert options that met our goals. Even though we are far away during most of the construction, we never have to worry-- Rob and his team proactively contact us for our opinion and choices whenever necessary, and our neighbors tell us how hard-working and conscientious McPhee's builders and other sub-contractors are. They even send us pictures so we can see the progress and enjoy the whole building process. We are aware of bad experiences others have had with other builders—building projects that went way over budget, ran late, or had problems with quality of construction. With McPhee Associates as our builders, our experience has all been and is highly positive from the design and planning phase on through construction and final details. Every time, we couldn't be more pleased than to have chosen McPhee Associates as our builder.
